

ROOSEVELT'S LIBEL SUIT

Marquette, Mich., Will Be the Scene of Interesting Case—Former President Wants Damages for Slander of Character Made By Editor.

Marquette, Mich., May 24.—Thousands of visitors will crowd into this city next Monday to attend the trial of the libel suit brought by former president Theodore Roosevelt against George A. Newett, an Ishpeming publisher. It is certain the court house will not hold those who wish to be present when Colonel Roosevelt will attempt to show that Newett was in error when he published last October in his weekly paper, the statement that "Roosevelt gets drunk and not infrequently and all his intimates know it."

The suit brought by the former president asks damages for \$10,000. It is estimated that the trial will continue two weeks although the

large number of deposition which will be read and the army of witnesses which will be examined make the duration of the trial uncertain. Local attorneys estimate that a jury may be obtained in four days as the case has not been "tried in the newspapers." When the suit was filed, Judge Flannigan received pledges from both parties to the suit to refrain from discussing the case with newspaper men and to keep secret the contents of depositions and the names of witnesses. The pledges have been kept, and no outsider knows the name of a defense witness except that of an Ohio newspaper man whose paper is said to have published his testimony. It is thought that because of these facts twelve intelligent and impartial jurors may be quickly obtained. The former president is expected here Monday. He will be the guest of a friend, George Shiras, famous as a photographer of wild animals. His attorneys are J. J. Pound of Detroit, Michigan and W. S. Hill of Marquette. Mr. Newett will be represented in court by William P. Beiden of Ishpeming, and Horace Andrews of Cleveland, Ohio.

Mr. Newett in the campaign last year remained in the ranks of the Republicans and the publication of the Roosevelt editorial was an incident of that struggle.

This only is known of his defense. He will claim that publication of the article was privileged as comment on a public character running for public office and as a secondary line of resistance, he will attempt to prove that the editorial spoke the truth.

The defendant is a man of middle age, iron gray hair, a cropped mustache and what local description calls a "fighting" face. He is comfortably equipped with the goods of the world, although not rich. He has received all contributions of money to assist in his defense according to a statement made by his son today.

The suit is almost the sole topic of conversation in this section. Judge Flannigan has declined to make reservations for any except newspaper men in his court and long lines of would-be spectators probably will form daily before the court house to await the opening of court.

KEEP BOYS ON FARMS

Philadelphia Mayor Tells How the Boy Can Make More Money On the Farm Than in the City.

Madison, Wis., May 24.—Mayor Rudolph Blankenburg of Philadelphia and the eastern delegation here to study advanced educational methods, took a "short horn" course at the State Agricultural college yesterday, and heard Prof. R. A. Moore tell how boys are kept on the farm by showing them how to make so much money that they will not leave.

When agricultural students demonstrated the right and wrong ways of milking, Mayor Blankenburg led in giving three cheers for the professor, the milkers and the cows.

All the high grade stock on the university farm was brought out for the inspection of the seekers after knowledge.

Prof. Moore told of the development of pure bred grains, the demand for winter grown seeds all over the world, and the story of how farmer boys who came to the university a few years ago are now laying up large profits.

Prof. H. C. Taylor discussed marketing problems and Prof. E. H. Farrington described the work of the dairy school.

Mrs. Blankenburg, wife of the Philadelphia mayor, will talk on woman's suffrage agriculture to be given by Mrs. Charles Van Hise this morning.

WAITRESS IS BEST WORK

Witness Before Missouri Senate Wage Inquisitors Declares the Restaurants Give Girls More Money Than Any Other Job.

St. Louis, May 24.—That the work of a waitress is the best employment for a girl, that the low wages paid to domestic servants in the rural districts is the reason why country girls seek employment in the city, and that the girls in steam laundries work in such intense heat that they often faint at their work was testified yesterday before the Missouri senate wage investigation commission.

Testimony as to the relative desirability of work in a restaurant for a woman was given by a girl employed at the Gem restaurant here. She said she was paid \$7 a week, and that her tips averaged a dollar a day. She lives with her cousin who works at the same restaurant during the noon lunch hour. She pays the cousin \$3 a week for taking care of her 11-year-old daughter.

"I manage well," she said. "I stop and think twice before I buy. I work 10 hours a day. Our room costs \$2.50 a week and it is good enough for a working girl. I am in it only at nights. I get all my meals at the restaurant. I manage to have a suit for Sunday and a suit for work."

My employers treat me well. I have a little bank account. Waitress work is the best there is for a girl if she has nobody but herself to look out for."

A frail little girl who looked so thin that State Senator Kinney asked how she had been able to stand that she worked at Penny & Gentles' store for \$3 a week, all of which she paid to an aunt for board. A 14-year-old girl said she went to work at the same store recently for \$2.50 a week.

A girl, 24 years old, buyer for the fancy goods and pattern department at Penny & Gentles' said she gets \$10 a week and that the wage average of the sales girls there is \$6.

A girl employed at Nugents' department store testified that she gets \$6 a week salary and commission that increases her earnings almost to \$8 a week. When ill recently she paid \$9 a week for a room in a hospital in addition to the doctor's bill.

She received no salary during her illness but drew \$10 from a beneficial aid organization in the store, to which she contributed 20 cents a week.

A waitress who makes \$4 a week from 11 a. m. to 3 p. m. was asked if she ever went to the parks on Sunday.

"I do if someone takes me," she replied. "Not on my own money. I can't afford it. I'm lucky if I have fare to go to work."

FLASHLIGHT POWDER EXPLODES IN THEATRE

Salt Lake, May 24.—The explosion of flashlight powder being used to take a picture of 200 singers of the University of Utah musical society, which rendered "The Messiah" at the Salt Lake theatre last night, seriously injured Benjamin Ellerbeck, 21 years of age, son of W. W. Ellerbeck of 42 South Ninth. The young man's injury is a compound of a hole nearly an inch in diameter through his right wrist, several lacerations on the left arm and hand and on the face, and a missing tooth. He was not rendered unconscious and ran to the police emergency hospital. A first aid was given by Dr. H. B. Sprague. After his wounds had been dressed Ellerbeck left the station.

Later, when a Tribune reporter called at the Ellerbeck home to learn the extent of the boy's injuries he was met at the door by Mrs. Ellerbeck, who had been awaiting her son's return. She knew nothing of the accident and became hysterical when told of it. She called her husband, who went upstairs to call another son. The discovery was then made that young Ellerbeck was in bed and fast asleep. He had come home without his mother's knowledge and gone quietly to his room in order that the sight of his injury might not worry her.

TWO KILLED AT BINGHAM

Bingham, Utah, May 24.—One line-man was killed, another fatally hurt and a third seriously injured when a telephone wire on which they were working came in contact with a high-power electric wire on the Boston Consolidated mining property here late yesterday. Curtin E. Erman and Arthur Davis, who had hold of the wire on the ground, were terribly burned. The former was killed almost instantly. When Eugene Gerarson received the current as he was working on a telephone pole, he fell to the ground fatally injured.

The sudden breaking of a heavy iron wire which was being strung across the high power wires of the Utah Copper company in front of the home of B. W. Wadleigh, near Bingham at noon yesterday, caused the instant death of Curtin E. Erman, E. L. Gerarson was on a pole near the large spool from which the wire was being reeled, and was hurled to the ground. Davis was standing near Erman. Gerarson was rushed to a train for Salt Lake City, but his condition was so critical that he was taken back and died in a Bingham hospital.

The telephone wire was being strung by linemen of the Mountain States Telephone & Telegraph company. Several men were working with the wire at the time of the accident. Both copper and iron wire were being used, but the wire that caused the accident was the iron wire.

The line was being strung over and at right angles with the high power line of the Copper company. Pulleys on each side and some distance above the power line were used over which to draw the wires being strung. Several men were at either end of the wire and great strength was being exercised to pull the wire over the pulleys. When the wire broke, the end nearest to the reel fell upon the power line and caused a terrific current to reach the three men who happened to have hold of the wire.

Erman, who was holding the wire as it was being reeled from the large spool, was the subject of the most direct current, his body acting as a "ground." He was instantly killed. Gerarson, who was on a pole near the spool and the contact there was sufficient to hurl him to the ground. Gerarson was unmarried and lived in this city.

The breaking of the iron wire was so sudden and the results followed so quick succession that none of the men near the scene was able to give an accurate account of the accident. William J. Sullivan, city foreman of the telephone company, questioned Mr. Davis last night at the Davis home, and was able to learn enough to surmise the remainder of the details. Nearly every man who was near the scene of the accident told a different story of the affair. It was at first thought that the coil had become unwound suddenly, but the fact that the wire was broken weakens this theory.

The men who were pulling the wire felt no shock whatever and it is supposed that their end of the wire was pulled clear of the deadly current of the Utah Copper company's wires.

Lark, Utah, May 24.—At almost the same time that the telephone linemen were killed or injured at Bingham, David Ceresa touched a live wire at the Ohio Mining company's concentrator and fell to the floor dead. The wire is said not to carry a high voltage, and it is believed that the shock caused heart failure, which resulted in his death.

DRUNKENNESS

is a curable disease, which requires treatment. The ORRINE treatment can be used with absolute confidence. It destroys all desire for whiskey, beer, or other intoxicants. Can be given in the home. No sanitarium expense. No loss of time from work. Can be given secretly. If after a trial you fail to get any benefit from its use your money will be refunded.

ORRINE is prepared in two forms: No. 1, secret treatment, a powder; ORRINE No. 2, in pill form, for those who desire to take voluntary treatment. Costs only \$1.00 a box. Come in and talk over the matter with us. Ask for booklet. A. R. McIntyre, 2421 Washington Ave.

In England the number of industrial accidents has increased in spite of recent legislation.

PLAN CHANGE IN CURRENCY

Senate Banking Committee Will Discuss Bills Which Will Reform the Nation's Financial System, Before Presenting Its Final Report.

Washington, May 24.—In addition to conducting hearings and listening to the answers to questions which are to be propounded to bankers and financial experts, the senate banking and currency committee will discuss numerous bills proposed to reform the financial system of the country before it presents a measure to the senate. Chairman Owen and many other members of the committee are engaged in drawing up bills designed to alter the currency system, and it will be necessary for the committee to consider all of them before it settles upon a measure that it can support. It is regarded as improbable that an effort will be made at the present session to reform the banking laws of the United States, but attention will be focused on the need for more elastic currency and for the mobilization of reserves so that they can be utilized quickly in case of financial stress.

Republican leaders are convinced there is little likelihood of radical legislation on currency subjects. They do not believe that serious effort will be made to provide for the guarantee of bank deposits and they hope that some sort of central reserve association will be provided.

The sub-committee authorized to settle upon a list of questions to bankers met yesterday but did not complete its task. Dr. A. Piatt Andrew, former assistant secretary of the treasury, and one of the experts of the monetary commission, sat with the committee and offered suggestions for questions. A formal draft will be laid before the sub-committee Monday by Chairman Owen, who also will draw up a letter to accompany the list.

"CRYSTAL GAZER"

FINDS HORSE THIEVES

Logan, May 23.—A party composed of Sheriff John H. Barker, County Commissioner Olof Cronquist and Constable Perkes of Hyde Park started from here this evening for Malad where they will be joined by Sheriff of Oneida, and will then proceed on the trail of horse thieves who last evening stole eight valuable horses from the farm of Commissioner Cronquist at Benson. The pursuers were in a high-power automobile and expect to overtake the thieves. Mr. Cronquist lives here, but has a farm at Benson.

His son traced the horses this morning and traced them westward out of the valley and then reported to the sheriff. Nothing could be learned for some time and finally Cronquist sought the advice of Mrs. Peterson, a "crystal gazer" woman, who indicated afterward Sheriff Barker received verification of her advice from Box Elder county officers.

The thieves are apparently headed for Idaho, so Idaho sheriffs will join the party. The stolen animals are worth not less than \$2000.

FEDERALS LOSE 100

MEN IN SKIRMISH

Eagle Pass, Texas, May 23.—In a battle near Sacramento, in northeast Mexico, 100 federals were annihilated and killed by state troops, according to reports brought here today by Constitutional leaders, who are gathering across the river from here for a military conference.

Carvo, a former follower of Orozco, led the federals at Sacramento. This victory gave the Constitutionalists possession of all towns between Saltillo and Monclova. Huerta's opponents claim also to have captured the cities of Zacatecas, Parras and San Pedro de Colonias, near Torreon.

MANIAC SAYS HE WAS BOTHERED

Pocatello, Ida., May 24.—"Because they bothered me!"

This is the simple explanation given by Peter Bradovitch, the mild-mannered maniac who killed his companions, George E. Race, George Shepherd, Hyrum Peterson, George E. Fede and Ellis Bagley, at the Blackfoot asylum, Wednesday night, using a small table with which to brain them while they were sleeping.

Four of the men were lying just as they had gone to bed. The bed clothing was not even disturbed. But the head and face of each of them was frightfully beaten in. In the case of the fifth man killed there was some indication that Bradovitch had either awakened him or had not dealt a deadly blow on the man's head the first time, as the head had been turned.

In his bloody work of beating the five men to death, Bradovitch had literally demolished the small table he was using as a weapon. It was a small stand with a heavy square top, and he had knocked the top off it, and was preparing to hit his last victim again when the guard interrupted him.

The murderer was not in the least excited, and when asked by the guard why he had killed his companions, he answered in a morose and somewhat sulky manner:

"Because they bothered me!"

DEPENDENT AND ILL.

MAN KILLS HIMSELF
Salt Lake, May 24.—Looking himself in his room at the Linden hotel, M. J. Lane, 30 years of age, a bartender at the annex saloon, 270 South Main street, committed suicide yesterday afternoon by firing a revolver bullet into his brain through the roof of his mouth. Dependency over ill health is said to have been the cause.

The German government has planned the establishment of a great number of trades boards for the female home workers.

OGDEN STATE BANK
CAPITAL & SURPLUS
\$225,000.00

Safekeeping of Valuables
